

# CLARITY UNIVERSITY

## TIME LINE OF HISTORICAL EVENTS LEADING TO THE CREATION OF CLARITY UNIVERSITY

In 1961 - Dr. Arthur C. Guyton discovered the "Dry State" that cells must be in to get oxygen. He published the "Textbook of Medical Physiology," and he taught that the blood is almost all water, and that the blood proteins come out of the blood stream with the water to alter the "Dry State;" and he said that if the lymphatic system failed to keep the blood proteins and excess water out that it could cause our death within twenty-four hours," and that it could happen "in just a few hours."

Dr. H. S. Mayerson of the Tulane Medical School in Louisiana taught Dr. Guyton, and -

In 1964 - Dr. H. S. Mayerson tagged the Blood Proteins that are a part of the blood stream with radio-active iodine to see how much passed from the blood stream [to alter the "Dry State"] and produce lack of oxygen to cause disease and death!

He calculated that about one half the Blood Proteins escaped from the blood stream every twenty-four hours; and that if the Lymphatic System did not retrieve these Blood Proteins, he said, "it would spell swift catastrophe." He said, "We would all bleed to death internally in a matter of hours."

In December, 1964 - Dr. Mayerson's research was published by The American Medical Association in "Today's Health," their official journal! At the same time, Readers Digest published a condensed version of the same article called "Our Amazing "White Blood Stream"". Then almost two years later -

In 1966 - The Government and the Army brought all the Medical Doctors who studied Lymphology from all over the world, (most of them being department heads of Medical Schools and Universities), even from behind the iron curtain to meet with Dr. Mayerson at his home in New Orleans; and they started the ISL, (International Society of Lymphology). This blood protein research has disappeared out of the Medical journals and out of the Medical spot light ever since - this being the last thing stated in the last sentence of the last paragraph in the Dec. '64 article: "Thus, this great river of mystery may well hold the key to dozens of disease riddles. That is why it is getting ever increasing research attention. Inevitably, discoveries of vital importance to all will be made". Well, it's been over four decades,

so where are they? They are right here! Read on...

In 1966 - Another major event took place when Dr. Otto Warburg, who won the Nobel Prize in 1931 and 1944 gave a lecture at the "Annual meeting of "Nobel Prize Winners" at Lindeau, Germany. He stated that the prime cause of cancer was lack of oxygen, and that cancer cells live on the fermentation of Glucose due to lack of oxygen. The English version of this lecture was published in the United States by Dean Burk of the National Cancer Institute, in Bethesda, Maryland.

In 1974 - During the fifth year of teaching Chemistry, Dr. C. Samuel West got the "Dry State Discovery" made by Dr. Arthur C. Guyton.

In 1976 - Dr. West resigned from teaching chemistry to lecture and teach the Scientific Research and Self-Help Techniques that will help conquer human suffering and death by disease.

In 1978 - Dr. West went to New Orleans to meet with Dr. Mayerson who told him the entire story; and Dr. Mayerson agreed to help Dr. West as much as he could, and to be on his advisory board.

In 1979 - Dr. Guyton and Dr. West went to Florence Italy to the 7<sup>th</sup> International Congress of Lymphology. Dr. Guyton presented his "Dry State Discovery," and Dr. West was accepted as the 379th member of that Society.

In 1980 - Dr. West wrote a 31 step equation to describe the "Dry State" where it is impossible for people to have Cancer, Viral Infections, Bacterial Infections, Allergies, or even aids, Arthritis, M.S., Polio, Cerebral Palsy, High Blood Pressure, or Heart Disease.

In 1981 - Dr. Raymond W. Bélanger, president of the ISL, invited Dr. West to come to Montreal, Canada, and present this 31 Step Equation at the 8<sup>th</sup> International Congress of Lymphology.

In 1981 - Dr. West presented all 31 Steps of the Equation at this Congress. The equation was accepted, and members of the committee that Dr. West presented this equation to encouraged him to start the International Academy of Lymphology, the IAL, and to help get this research to people.

In 1982 - Dr. West says, "With God's help, the book, The Golden Seven Plus One, which contained the 31 Step Equation and the "Dry State" was published;" and Dr. West founded the International Academy of Lymphology, to certify Lymphologists all over the world to teach this research.

In 1983 - Dr. West went to the 9<sup>th</sup> International Congress of Lymphology in Tel Aviv, Israel where he gave two presentations. One was “HOW TRAPPED PLASMA PROTEINS PRODUCE THE CONDITIONS THAT CAUSE HIGH BLOOD PRESSURE AND HEART DISEASE;” and the second was “HOW TRAPPED PLASMA PROTEINS PRODUCE THE CONDITIONS THAT CAUSE CANCER AND SPONTANEOUS HUMAN COMBUSTION.”

At this Congress, some of the top medical doctors in the world agreed to be on his advisory board. All Dr. West asked these men to do was to tell anyone who questioned them that the Trapped Blood Proteins cause disease and death. To this they all agreed.

In 1993 - Dr. Stephen E. West, Dr. C. Samuel West’s son, undertook enhancing his fathers life work and research with Clarity, and Clarity really began to take form. The next 10 months were the most successful in all of Dr. C. Samuel West’s entire career, thanks to the help of Stephen. They had become an amazing father and son team, which started with their radio shows from coast to coast. Dr. Stephen E. West has been raised with all this research and aside from his father, he has studied it more closely than anyone else. Stephen is also the only one of Dr. C. Samuel West’s offspring who has developed 2<sup>nd</sup> generation educational products and materials, which he’s done since, 1993.

Stephen trademarked the names Speed Heal™ and Speed Healing™, to separate the new brand of processes and programs he’s developed, out of his fathers work, from the rest of the crowd.

At this time, between the summer of ‘93 and the summer of ‘94, part of the success of helping people learn how to overcome all types of ailments was that Dr. Stephen E. West helped two AIDS patients to “zero convert”, (meaning their doctors had detected the antibodies, which are used to diagnose AIDS, but these two patients had purified themselves and became so clean that when they went back to get tested again, the doctors couldn’t even find the antibodies anymore, and so they were diagnosed as not having AIDS anymore). Yet just after that, a University of Utah professor of Stephen’s, who lectured to his Med Lab class on AIDS, was curious to where Stephen was getting his information from, as Stephen gave more insight on AIDS than anyone else in his class. So Stephen waited until class was over, not wanting too much attention from his other class mates, and Stephen let her know how he’d studied the Immune System and the Lymphatic System his whole life, thanks to his father, etc., and then told her he’d actually helped “zero convert” two AIDS patients already. She quickly stated, “Now I know you’re a fraud and a

hoax, because that's absolutely impossible!" She then immediately turned around and walked away, without asking what their names were, what their doctors names were, or anything else, but this was before the mainstream medical community thought or knew it was actually possible to "zero convert" anyone. Since then, enough people have done it, like Magic Johnson, yet no one's made any big deal about it. Stephen says that these two guys can be a little tough to keep in touch with - that Alfredo hasn't called in for years, but Charles is still keeping in touch, although he's moved back and forth all over the country. Stephen decided that his professor should have been learning from him and knew if he was to progress, he would need to be learning from those who knew more. So -

In 1995 - Dr. C. Samuel West and Dr. Stephen E. West went to the 15<sup>th</sup> International Congress of Lymphology, in Brazil. Since Dr. C. Samuel West was asked to be Chairman over presentations, which he had also been approved to present two more presentations, he approved of Stephen E. West who was a participant of that Congress to assist and explain these two final presentations, "THE CAUSE OF AIDS, HOW THE HIV VIRUS KILLS AND HOW TO STOP IT" and "HOW ENERGY FROM VARIOUS SOURCES CAN ACTIVATE THE LYMPHATIC SYSTEM TO HEAL THE BODY".

In 1997 - Some re-organizing in the IAL quickly took place, shortly after Dr. C. Samuel West invited a partner to be "Executive Trustee", who turned out to be a total fraud.

In 1998 - Dr. Stephen E. West was asked by his father to accept his Executive Director position in the IAL, which he did.

In 2000 - The IAL sort of imploded due to it's Executive and most Senior Officers not seeing eye to eye. Although Dr. Stephen E. West took his fathers side, the State of Utah awarded the IAL DBA to the "other side".

In 2002 - The State awarded the IAL DBA to Dr. C. Samuel West, after the "other side" neglected to renew registration.

In 2003 - 90% of the other organization left the "Fraud".

In May 2004 - Dr. C. Samuel West had a very serious accident and head injury, which led to paralysis in less than one week, and he passed away, September 13<sup>th</sup>, 2004.

In January 2005 - After many, many family counsels and mediation, Dr. Stephen E. West was counseled to separate Clarity entirely out of the IAL, which had been a Master Auxiliary of the IAL. So a newer, bolder name, Clarity University, has been taken to help distinguish the new from the old,

and Clarity University holds all the powers and keys to perform everything that it ever has. And more -

Now - the 31 Step Equation by Dr. C. Samuel West, the "Dry State Discovery" by Dr. Guyton, Dr. Otto Warburg's discovery that cancer is caused by a lack of oxygen; and the Blood Protein Research by Dr. H. S. Mayerson that was published by the American Medical Association in 1964, have been brought together in harmonious synchronisation of understanding, order and Clarity; and the new "*Applied Lymphology Course*" (a complete home study course) was organized and developed by Dr. Stephen E. West, out of his fathers original work, to teach people the scientific research and *Speed Healing™ techniques* that will help conquer human suffering and death by disease.

NOTE: What brings the blood proteins out faster than the lymphatic system can handle them?

The answer is: "Breaking the Mental, Nutritional or Physical Laws of Health, or the "Pure Laws and Principles" that men must obey to truly prevent, remove and eliminate pain, loss of energy and disease. We must establish peace in the process and here's why:

Death from shock is actually death from "Trapped Blood Proteins." This was published in the Encyclopedia Americana in 1953, 1956 and 1960 under "Hypoalbuminemia" (meaning low albumin in the blood). The albumin comes out of the blood stream with the water to alter the "Dry State" so fast that shock can cause our death within just a few hours, just like Dr. Guyton, and Dr. Mayerson said. After the shock research was published in Encyclopedia Americana in 1953, 1956 and 1960, it mysteriously disappeared! (They removed it from future publications.)

**Stress is a mild form of shock!**

With the knowledge of the Blood Protein Research, contained in the Applied Lymphology Course, you can now learn how important it is for you and your loved ones to live these laws. Let us show you how!
